# LEARN-TO-SWIM REPORT

FOR LESSONS BETWEEN JANUARY AND JUNE 2022

No More Under is improving water safety by reducing financial barriers to ensure equitable access to swimming lessons.

# OUR LEARN-TO-SWIM PROGRAM

No More Under facilitates connections between existing organizations to support socio-economically disadvantaged children through learn-to-swim programs. We are not a swim school, rather, we maximize impact by connecting low-income housing organizations (and their tenants) with organizations who provide swimming lessons. With support from donors and partners, No More Under is able to cover the costs of the lessons including swimming materials and transportation, to ensure financial barriers are removed for participants.

## PROGRAM MISSION

No More Under is reducing the financial barriers to support equitable access to swimming lessons. Everyone deserves to safely enjoy the wonders of the water.

## COMPLETED PROGRAMS

Thanks to a generous donation from the Harnish Family Foundation, we have supported three learn-to-swim programs. We have worked with affordable housing organization [Bellwether](#), and swimming lesson providers including [Waterbabies](#), [Rainier Beach Pool](#), [Seattle Parks and Rec](#), [Tankproof](#), and the [Seattle YMCA](#). These relationships have allowed No More Under to effectively and efficiently serve large numbers of families.

**Waterbabies:** 10 week, 25 minute lesson once-per-week program

**Seattle Parks and Rec and Tankproof:** 5 consecutive days, 40 minute lesson per day, program

**Seattle YMCA:** 8 week, 40 minute lesson once-per-week program

---

# THE DATA

Below, we outline the information that we've gathered from the three swimming programs we've supported to date. We will continue to collect data and develop additional metrics to ensure we are providing the best services to the families we support.

## CHILDREN SUPPORTED:

**Waterbabies:** 18 swimmers

**Rainier Beach Pool + Tankproof:** 48 swimmers

**YMCA of Greater Seattle:** 50 swimmers

## TOTAL SWIMMERS: 116

Between January and June 2022

---

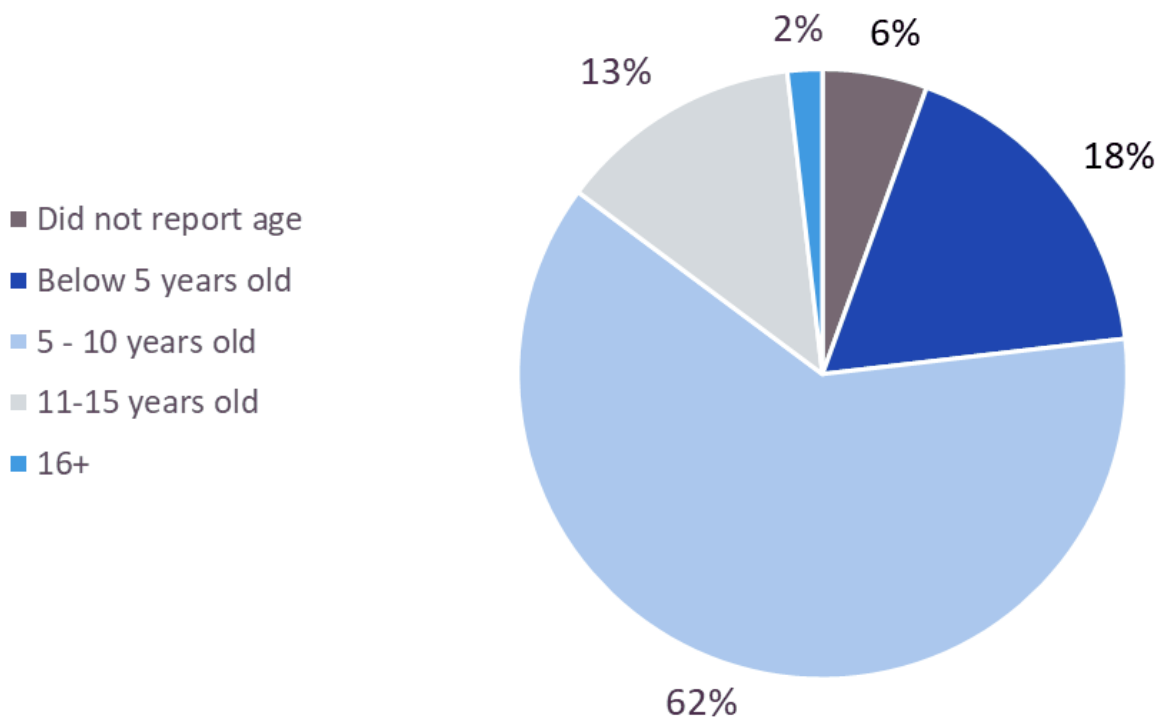

# DEMOGRAPHICS OF PARTICIPANTS

## GENDER:

Didn't Report  
16.7%

## AGE (IN YEARS):

---

\*The demographics are as reported by the parents/guardians of the participants

# ETHNICITY

# COSTS

	Cost Per Swimmer	Total Cost
Waterbabies	\$400.00	\$7,230.00
Rainier Beach + Tankproof	\$285.00	\$11,400.00
YMCA	\$300	\$15,000

## BREAKDOWN

No More Under recognizes the costs involved with participating in swimming lessons extend beyond the direct costs of the lessons. With support from partners, we ensure families are supported with free swimming lesson materials (swim suits, goggles, caps), transport support (fuel cards or public transport vouchers), and swimming lessons. The costs above are total costs including the swimming materials and transportation support. They are as close to the exact number as possible, acknowledging that small differences in swimsuit prices, attendance rates etc. can slightly influence costs.

## NEXT STEPS

Our goal is to support 215 children through lessons before the end of 2022. We will support another cohort of children receiving lessons at the YMCA and we will run another version of the Spring Break lessons towards the end of summer. We are also excited to have the opportunity to support families in Bellevue with a new partnership with SwimGuru.

We will be utilizing information from the three programs to expand and replicate the learn-to-swim lessons to benefit many more community members.
